

## **NMRWA, Who We Are**

The New Mexico Rural Water Association is a non-profit member-based organization, serving drinking water and wastewater utility systems throughout the state. Our 400 members provide safe, clean drinking water to over 450,000 New Mexicans. NMRWA is part of the National Rural Water Association, the world's largest utility membership organization with over 26,000 members. Communities depend upon the Rural Water Association to provide quality training for certified operators, on-site technical assistance to protect water resources and representation on regulatory and legislative issues. We are celebrating our 30<sup>th</sup> Anniversary this year at our Annual Technical Conference, held from March 17<sup>th</sup> to 19<sup>th</sup> at the Hotel Albuquerque.
